

# Services to Supporters

**REHVA** supporters are reputable companies that pursue the same objective as **REHVA**. The benefits for **REHVA** Supporters are multiple; they range from an increased European exposure, to networking with the most well-known experts and HVAC organisations and having access to most recent technical and educational material in the HVAC field.

By becoming **REHVA** Supporters, companies also join reHVAClub – the meeting place where **REHVA** Supporters and **REHVA** members at executive level are able to network and develop mutually beneficial exchanges on linking the European Markets with current HVAC Research and Development work.

## SERVICES TO SUPPORTERS INCLUDE
