
Activity Plan 2017 of the Supporters Committee

1. Committee's Internal Organisation

Supporters Committee is a coordination team which supports REHVA activities and develops the services offered to REHVA Supporters according with proposed REHVA General Strategy. Until April 4th, 2017, Ioan Dobosi (Chair of Supporters Committee) is responsible for Supporters' related activities. After the first Supporters Committee Meeting of 2017, the Chair will be Atze Boerstra, he will be responsible for Supporters' related activities. The REHVA office will be responsible for the more practical aspects (details in task division will be decided upon in April).

2. Strategic Objectives of the Committee

The Supporters Committee aims to reach the following objectives:

- REHVA as bridge between Members of its Members' associations and Supporters
- Strengthen relations with existing supporters;
- Attract new supporters;
- Project on Innovation;
- Turn the tide (bend the trend of existing supporters leaving).

3. Strategic Activities of the Committee in 2017

REHVA would like to start, in 2017, the process to become a bridge between the members of the REHVA Members' association and the Supporters' companies.

REHVA first step to become a bridge between the members of its Members and Supporters will be the ISH Fair in Frankfurt, during which a REHVA delegation of members of REHVA Members will visit booths of Supporters and it will be followed by a networking reception.

The next step will be the Supporters' Day in London during the REHVA Annual Meeting and then the REHVA Brussels Meeting.

In 2017 events, REHVA, based on its knowledge of research trends, should provide more insights and speeches about hot topics and future, emerging technologies.

The REHVA Supporters' Bulletin will be published in 6 issues in 2017.

REHVA would like to underline that, within the Supporters offer, is included free of charges the publication of Product news on the REHVA Journal. We would like to encourage the REHVA Supporters to promote themselves through the REHVA Channels.

The REHVA Supporters should be more involved on the REHVA Activities with MoU partners around the globe, we would like to encourage them to take part of the organization of meeting and seminars with our MoUs organization if their aim is to open their horizons outside Europe.

Supporters (present at the London meeting) will be asked to come up with additional concrete ideas (to implement in 2017 > 2019) to increase the effectiveness of the Supporters Committee.

REHVA Members and Supporters should have a think tank table about the future of HVAC sector creating a document with a full vision on the sector such as a position paper.

We also plan - before the end of 2017 - to have attracted a new energetic co-chair for the Supporters committee that will help the new chair and the REHVA office with the subtask 'relation management'.

4. Expected Outcomes in 2017

All the actions mentioned under point 3 should lead REHVA to improve the relationship with the existing Supporters and create the bases to attract new ones.

The REHVA Supporters Committee should become a solid and concrete help for REHVA Supporters to promote themselves.

5. Meetings

Two main Supporters' meetings will be organized in 2017:

- April 4th, 2017: Supporters day / REHVA seminar (in London)
Core focus: future of HVAC, industry innovations and policy developments.
- November 13th and 14th, 2017: REHVA Brussels Meeting
Core focus: recent EU developments (e.g. EPBD implementation) in cooperation with e.g. specialist from DG Energy and DG Health, and an MEPs from the EU parliament.

Note that both meetings are open to representatives of member associations too.

Apart from that in 2017 there will be informal contacts with REHVA Supporters, e.g. at international events like ACREX in New Delhi, ISH in Frankfurt, AIVC event Brussels, ASHRAE summer meeting in Long beach (CA).

6. Budget Plan

Activity	Cost (€)
ISH Supporters' Activities	2000
Supporters' Day London	2000
REHVA Brussels Meeting	3000
TOTAL	7000

The sub budgets will be used to cover travel and hotel costs of invited speakers, to cover catering costs (incl. invited dinner), costs for renting meeting rooms (if necessary), etc.

7. Members
