10th May 2016

Discounted places available to hear leaders in alternative refrigerants at the 12th Gustav Lorentzen Natural Working Fluid Conference in August.

Book by 19th May.

Book your place by 19th May to take advantage of discounted rates for the internationally acclaimed conference in Edinburgh, Scotland on 21st -24th August. Join an international audience of researchers and industrialists showcasing the latest developments in the field of natural working fluids. The 140 papers reflect the high level of international interest not only in the main theme but in the related topics of sustainability and alternative cycles.

Key note speakers addressing the conference will be:

Director of the Environmental Investigation Agency in the USA, Alexander von Bismarck. Alexander will look at where the domestic, industrial and commercial refrigeration sectors are on the road to the adoption of environmentally benign refrigerants. His talk will focus on how mind sets and practices can be changed to aid the acceptance of sustainable practices in business.

Prof. Guangming Chen of the Ningbo Institute of Technology, China. This talk will give insights into how China is addressing refrigerant issues such as phasing out of HFC's and moving to environmentally acceptable refrigerants. He will also look at the Chinese decision making process related to the future use of refrigerants both in industry and within Government policy.

The final keynote speaker will be Ray Gluckman, technical consultant specialising in refrigeration and climate change who is a lead adviser to national governments, agency and the European Commission. Ray will discuss the opportunities and barriers for sector in adopting natural working fluids as well as how he believes those barriers could be overcome.

Book now for this conference to gain access to Key note addresses, practical short training courses and workshops, a programme of technical tours including distribution centres and factories – as well as over 140 conference papers. A social events programme is also included to provide unique networking opportunities with up to 350 developers and purchasers of innovative technologies.

Reserve your place now at www.gl2016.com – for more details of prices, accommodation and conference packages
