The 11th HVAC Mediterranean Congress, Climamed 2024, integrated in the 3 years cycle of REHVA related conferences (Clima, Climamed and Cold Climate), is under the responsibility of a set of five HVAC associations of Southern Europe countries, that assure the membership of the respective countries in REHVA:

- **AICARR** (Associazione Italiana di Condizionamento dell'Aria, Riscaldamento e Refriger), from Italy;
- **AICVF** (Association des Ingénieurs et techniciens en Climatique, Ventilation et Froid), from France;
- **ATECYR** (Asociación Técnica Española de Climatización y Refrigeración), from Spain;
- **OE** (Ordem dos Engenheiros), from Portugal;
- **TTMD** (Turkish Society of HVAC and Sanitary Engineers), from Türkiye.

Climamed 2024 will be hosted by TTMD Turkish Society of HVAC and Sanitary Engineers in İstanbul, between 17th-18th of May 2024, with the motto of "Towards Decarbonized Buildings and Cities" intending to represent a meaningful contribution to the solution of the problems posed to humanity by Urban Heat Island phenomenon.

Papers related to the various topics that are related to the mitigation of UHI are very much welcome to the congress. Inclusiveness will also be a major aim of the Congress organizers, which means that there is a desire and openness for participants to expand their geographical area of origin to other Mediterranean countries or to other parts of the globe with similar climates.

CONGRESS TOPICS

The congress expects researchers to contribute to the congress in the following areas:

- ◉ Low Energy Cooling Systems
- ◉ Internet of Things and GIS for HVAC Construction and Monitoring
- ◉ Urban Microclimate and Warm Climate HVAC Solutions and Regulations
- ◉ Ventilation Systems and Strategies
- ◉ Sustainable Energy Use in Buildings and Energy
- ◉ Building Management, Maintenance and Commissioning
- ◉ Standardization & Regulations
- ◉ Advances in Systems and HVAC Equipment for the Resilience to Climate Changes
- ◉ Zero Energy Buildings and Retrofitting
- ◉ Modeling, Simulations and Integrated Design
- ◉ Indoor Environmental Quality and Occupants' Behavior

TENTATIVE PROGRAM

17th of May 2024 (Hybrid)

- 13:30** Lunch
- 14:30** Opening Ceremony
- 15:00** Session 1
- 16:30** Coffee Break
- 17:00** Session 2
- 18:30** 25th Year Anniversary
Reception of Climamed

18th of May 2024 (Online) Turkish Time 10:00 | Gmt: +3

- 10:00** Session 3
- 11:30** Coffee Break
- 12:00** Session 4
- 13:30** Long Break
- 14:30** Session 5
- 16:00** Coffee Break
- 16:30** Session 6
- 18:00** Closing Ceremony

REHVA, The Federation of European Heating, Ventilation and Air Conditioning associations founded in 1963, is an umbrella organization that represents over 120,000 HVAC designers, building services engineers, technicians and experts across 27 European Countries.

REHVA is dedicated to the improvement of the health, comfort and energy efficiency in all buildings and communities. The association provides its members with a strong platform for international professional networking, and knowledge exchange pursuing the vision of improving health, comfort, safety and energy efficiency in all buildings and communities. It follows EU policy developments and represents the interests of its members in Europe and worldwide. This is achieved through the exchange of technical information, practical experience and research results by REHVA's working groups, seminars, publications and journal.
