

BECOME A REHVA MEMBER ASSOCIATION

REHVA, the Federation of European HVAC Associations represents more than 120.000 building services engineers from 26 countries. REHVA is dedicated to the improvement of health, comfort, safety and energy efficiency in all buildings and communities. REHVA provides its members with a strong platform for international professional networking, and knowledge exchange, contributes to technical and professional development, follows EU policy developments, and represents the interest of its members at EU level and globally.

REHVA membership is open to organisations in any country in Europe that represent HVAC engineers and technicians in the relevant country and that are concerned with the science and practice of heating, ventilation and air-conditioning [Read our articles](#).

MEMBERSHIP BENEFITS AND SERVICES TO MEMBER ASSOCIATIONS

- 🏠 Be part of the **REHVA professional community** of leading HVAC experts and indoor climate engineering professionals from academia and industry. Gain **visibility and reputation** in our international professional community, events, and stakeholder groups.
- 🏠 Join a common European voice promoting **healthy buildings, indoor climate quality, safety and energy efficiency** in all buildings and communities.
- 🏠 Join our **standing committees** to contribute to **technical guidelines**, EU advocacy actions and other activities. Delegate candidates to the **REHVA Board of Directors**.
- 🏠 Join our **international professional events and networking** opportunities with engineers, HVAC designers, researchers, manufacturers, and other stakeholders including high-level speakers from the European institutions and leading industry representatives.
- 🏠 Delegate your students to our **REHVA Student Competition & HVAC World Student Competition**. Engage with the **REHVA Community of Young Professionals**.
- 🏠 Follow our **online REHVA information and knowledge sources**, engage and gain visibility in our off- and online communication channels (e-newsletter, Journal, [website](#), Social media).
- 🏠 Benefit from **tailored information services** and the **international knowledge exchange** on technological trends, research results and innovations, national engineering practices and **EU policy** development and implementation.
- 🏠 Free and discounted **access to REHVA knowledge sources and services** (e.g. [European HVAC guidebooks](#), [REHVA HVAC Journal](#), [Knowledge Hub](#)).
- 🏠 Get involved in [EU funded research projects](#) and international cooperation.

Fee: the annual membership fee is €3300.

Member Association Application Form

Please return a pdf copy of the duly signed form via e-mail to: info@rehva.eu
