

Active Task Forces in 2019

In 2019 the TRC welcomes new topics and proposals as many Task Forces are in final stage. Well-defined activities with outcomes useful for practitioners have a priority. The TRC chair and co-chairs are expected to be active in the work of selected Task Forces. A non-exhaustive list of 2019 topics includes:

- Smart Buildings (Task Force and Smart Readiness Indicator advocacy group)
- EU level harmonization of EPCs and EVCS (Collaboration with ALDREN and U-CERT projects)
- BIM in HVAC sector (collaboration with ProdBIM and BIM-SPEED project, CEN TC442)
- Focus on specific technologies such as hybridGEOTABS system design (collaboration with hybridGEOTABS project), air curtains (in collaboration with Eurovent), technical systems for greenhouses
- New proposals submitted by TRC members and PMC
