

Welcome to the **CLIMA HVAC World Congress 2022!**

At **REHVA** we hope you enjoy your time in Rotterdam, use this opportunity to expand your network and meet with old friends and gain useful insights during the seminars & workshops.

Workshops not to be missed at **CLIMA 2022!**

We warmly welcome you to join any of **our interactive workshops** where we present and discuss a variety of topics related to **building performance** and the **uptake of energy efficiency measures**.

TUESDAY 24 MAY

- **11:00 - 12:30, CEN-CE scheme roll-out: harmonised training and certification experts on EPB standards** 
Location: Dock 15
Learn more about how training on the set of EPB standards, anchored in the Energy Performance of Buildings Directive (EPBD), adds value to day-to-day activities in the building sector. This workshop presents the EU-wide CEN-CE scheme providing training and certification on the use of EPB standards for building professionals.
- **11:00 - 12:30, Trigeneration systems based on heat pumps with natural refrigerants and multiple renewable sources** 
Location: Rotterdam C
Want to find out more about innovative heat pump solutions that push the uptake of systems based on on-site direct renewables? Join the TRI-HP workshop where technological innovations on trigeneration systems are presented and discussed with an expert jury.

- **14:15 - 15:45, Sustainable Finance in Building Projects: The EU Taxonomy & Financial Risks of the Performance Gap**

Location: Rotterdam C

Are you keen on learning more about sustainable finance in the building sector? Would you like to discuss the impact of the EU Taxonomy? Participate in our workshop on how quality management and how it impacts building value.

- **16:15 - 17:45, Support, consultancy and services for the implementation and practical use of the set of Energy Performance of Buildings standards**

Location: Rotterdam C

Standardisation experts from EPB Center are organising a focused session that will give you an overview of the implementation of the EPB standards (EU, China & USA), the publicly available resources at epb.center and how EPB Center provides tailored consultancy and services to ensure your organization makes optimal use of the EPB standards and gains a competitive edge.

WEDNESDAY 25 MAY

- **11:00 - 12:30, Digital transformation facilitating building performance convergence and enabling operational rating**

Location: Rotterdam C

Digitalisation has become a key enabler for enhanced Building Performance Assessment & Certification. The U-CERT project's digital tools facilitate the convergence of building performance calculation methodologies (EPB standards) and enable the inclusion of data driven operational rating creating new services that building professionals can swiftly include in their offering.
