

HIGH LEVEL POLICY CONFERENCE WORKSHOP

Heating, cooling and ventilation: how to achieve the largest savings in buildings pursuing the EU's energy strategy?

17 June 2015, 16.00-17.30

CoR - Jacques Delors Building, 5th floor, Room JDE52

PROGRAMME:

- 16.00-16.15 EPBD review and EU policies for the improvement of buildings energy efficiency
Paula Rey Garcia, Buildings Team Leader, DG Energy
- 16.15-16.25 Indoor environmental quality and energy efficient buildings
Frank Hovorka, REHVA Vice-president, Caisse des Dépôts, France
- 16.25-16.35 Supermarkets as an example of a winning smart grid appliance. How to add flexibility to the electricity grid while providing extra heat to the consumers of district heating and cooling networks
Torben Funder-Kristensen, EPEE, Danfoss
- 16.35-16.45 Heat pumps in the energy retrofit of buildings
Eric Delforge, EHPA Manufacturer's Committee, Mayekawa
- 16.45-16.55 Demand controlled and heat recovery ventilation in high performance buildings
Claus Händel, Technical Secretary, EVIA
- 16.55-17.05 The role of cities and regions in the transition to high energy performance buildings
Christiane Egger, Vice-President for Renewable Energy, FEDARENE, Deputy Manager, OÖ Energiesparverband, Austria
- 17.05-17.25 **PANEL DISCUSSION AND QUESTIONS FROM THE AUDIENCE**
Moderator: Sonja van Renssen, Energy Post
- 17.25-17.30 Closing remarks
- 17.30-18.30 **NETWORKING COCKTAIL**
