

Have your say on EPB standards !

REHVA commenting campaign

Anita Derjanecz, REHVA Policy and Project Officer

REHVA Supporters' Seminar, 06.10.2014 Brussels

EPBD standards – revision 2013 - 2015

- **REHVA is CEN Liaison Organisation** for 3 Technical Committees:
 - **TC 156** Ventilation in building (including air conditioning)
 - **TC 228** Heating systems and water based cooling systems in buildings (including domestic hot water systems)
 - **TC 371** Project Committee on Energy Performance of Buildings

- REHVA website **intranet section** was created to share latest drafts of the **EPBD technical standards (EN) and technical reports (TR) currently under revision** of the above three mentioned committees with REHVA Members and Supporters.

- **To get access** to the REHVA intranet section for EPBD standards – revision 2013-2015 please **send your request to** ad@rehva.eu

Call for comments on standards from REHVA network

REHVA launches a commenting process on **3 technical standards and related technical reports in the enquiry phase:**

- **prEN15251** - Indoor environmental input parameters for the design and assessment of energy performance of buildings
- **prEN13779** - Performance requirements for ventilation, air conditioning and room conditioning systems
- **prEN16798-17** - Guidelines for inspection of ventilation and air conditioning systems

Commenting procedure:

1. **Announced in an Newsletter end of October** with further information and key issues from REHVA CEN liaisons
2. Comments can be only submitted using the [CEN commenting form](#)
3. Deadline for internal commenting: December 2014
4. REHVA summarises the comments and submits to the CEN Secretariat
